

`print(d)`

Patrick Dixon, Emily Huynh, Andrew Thomas, and Adam Tremonte

After a long semester of hard work...

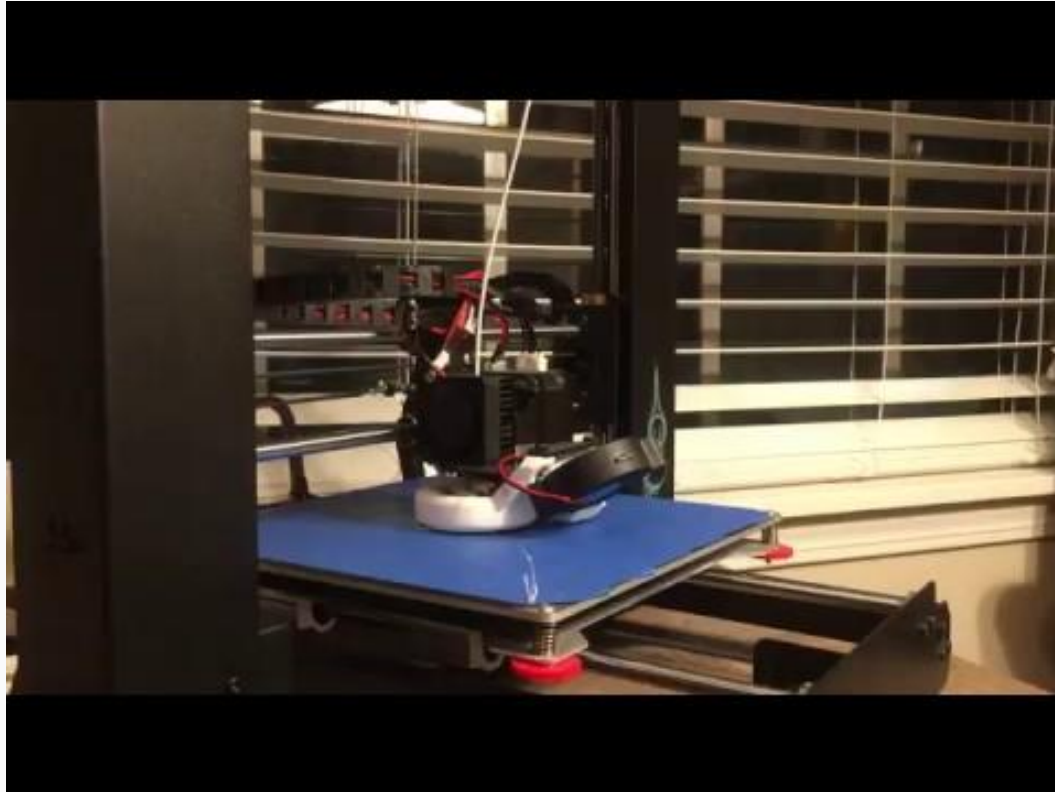

It prints!

Catch us on shark tank

Demo Video

We can't demo it to you live (because of UA wifi and the cumbersome printer), but here's a video!

Overall...

- ❖ We ♥ print(d)
- ❖ Andrew uses print(d)
- ❖ We would use print(d) if we had 3D printers

We produced a thing that works, so that's cool

Thank you! Questions?

Peace, luv, 'n roll tide we outta here
